

Web App – Add to Home Screen Instructions

Instructions for most common device operating systems and browsers:

Apple Devices:

Safari:

1. Open Safari on your iPhone or iPad.
2. Navigate to <https://rescu.mcsc.ca>
3. Tap the **Action** button  (often called the Share button) at the bottom of screen.
4. Scroll down the share sheet past the rows of contacts and apps, then select Add to Home Screen.
5. Give the web app a name, then tap Add.

Chrome:

1. On your iPhone or iPad, open Chrome .
2. Go to <https://rescu.mcsc.ca>.
3. On the right of the address bar, tap Share .
4. Scroll to find and tap Add to Home Screen.
5. Confirm or edit the website details and tap Add.

Firefox:

1. Launch Firefox on your iOS device.
2. Visit <https://rescu.mcsc.ca>.
3. Once the website loads, look for the share icon  in the address bar.

4. In the share menu, you will see various options for sharing and saving the website. Scroll to and Tap **Add to Home Screen**.
5. A dialog box will appear, displaying the website's title and a suggested name for the shortcut. You can change the name of the shortcut from this panel.
6. Tap **Add** in the top right corner.
7. The shortcut will now appear in your home screen.

**Missing Children
Society of Canada**
